

Morgan Place

Dogs are welcome back too!

We are happy to announce that we are able to allow visitation with pet visitors again.

- **Pets who visit must be on a leash**
- **Pets who visit must be well-groomed and friendly**
- **Please ensure personal pets interact only with their owners, handlers and the resident they are visiting**
- **Residents must clean their hands before and after each pet visit**
- **Pets are not permitted on beds**
 - **One pet per visit**

Welcome Back

At this time, we hope everyone has seen the new guidelines surrounding visitation and have found an option that fits their family to be able to see their loved ones.

For further information you can check on our website under the Covid-19 tab or the News & Events tab.

Thank you for your patience as we work through the kinks in putting together a safe and manageable visitation program.

It has been wonderful to see many of our returning families and we would like to welcome our new families that have moved a loved one in during this challenging year.

Email Eleanor or Stacy with any questions or to book an appointment

Care Packages for Drop off Table

Hours 9-2

Monday – Sunday

Things to consider for your drop off

1. No food that requires refrigeration. Packaged or homemade cookies or snacks in small quantities only. Please note our staff are busy right now and may not have time to assist with these. Please only send if it is appropriate for your loved one's diet and they have the ability to manage it independently.
2. Be mindful of a resident's needs. At this time we do not want to add a lot of clutter to the resident's rooms to help with the enhanced cleaning our housekeepers are doing.
3. We promise your items will be delivered but we cannot answer follow-up phone calls to search for items.
4. Clothing that requires labelling will be delivered to the laundry department and should be labelled and brought to the resident's room within 3 days.

**IF DELIVERIES ARE DROPPED
OFF OUTSIDE THIS TIME FRAME,
WE CANNOT BE RESPONSIBLE IF
THE ITEMS GO MISSING**

Sunshine and Courtyard Visits

Courtyard visits will be a popular way to visit at Morgan Place.

They must be booked through the Program Coordinators, Eleanor or Stacy.

Each visit is one hour and we ask that you have the resident back to their room and that you are exiting the building at the time you were given. We do book back to back appointments to ensure that we can reach as many families as possible.

Masks must be worn in the courtyard by our family members and be mindful of other residents that might be enjoying the courtyard. Please keep your distance and do not visit with other groups that are not in your party.

Music is in the air

Our Music Therapist, Emily, is a busy bee bringing music to our residents. She has 6 one hour sessions each week and spends a minimum of one hour in each unit.

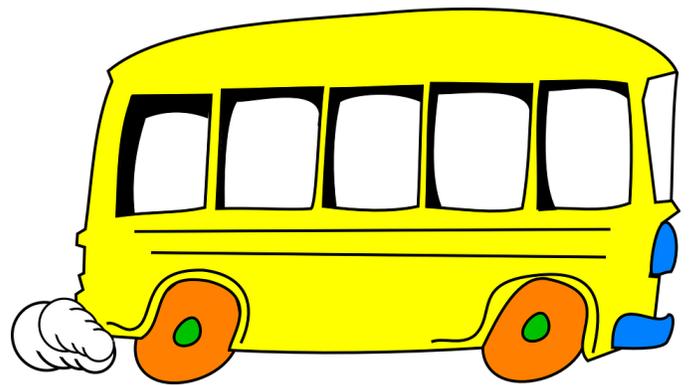

She is a travelling musician around Morgan Place and has an array of music up her sleeve. You will most often find her with her guitar bringing some musical memories to our residents.

ON THE BUS...

We are excited to get that bus out and moving! We will be taking the residents on scenic drives to the beach and other scenic routes.

Each drive will be organized per unit and space will be limited. There will be a slow roll out as we re-introduce bus outings and organize how this will look.

Virtual Visits

Virtual visits are still being offered but on a limited basis. As we transition into being able to do more programming, courtyard visits, and managing the visitation program we are limiting our FaceTime and other forms of virtual visits to those that live out of area and who are unable to visit in person or book a window or courtyard visit.

Thank you for your understanding.
